

25<sup>th</sup> November 2021

Professor Nalini Pather

Director: UNSW Scientia Education Academy; Chair, Anatomy

University of New South Wales

Dear Professor Pather,

I would like to thank you for your contribution to the 2021 Australian Awards for University Teaching as an assessor for the Citations For Outstanding Contributions To Student Learning.

It is through your dedication and commitment that we continue to uphold standards of excellence in learning and teaching across the higher education sector in Australia. We greatly appreciate all the extra time and effort you took to:

- Read through each application and provide thoughtful, detailed, comprehensive feedback during the individual assessment phase.
- Meet your team members from across the country to deliberate on your final comments and ratings during the collaborative assessment phase.

Your support has provided valuable feedback to the nominees and ensures the success of the awards.

We look forward to having the opportunity to hopefully collaborate with you in the future.

Kind regards,

Professor Angela Carbone  
AAUT Awards Team Director
